Americas at AECOM

# Leaders Up Close

Fall 2016 Seminar Series

**JOANNE PUGLISI, '73**  
Former executive,  
Lockheed Martin Simulation

**JASON DUNN, '07, '09**  
Co-Founder, Made in Space, Inc.

Each fall and spring, eli<sup>2</sup> offers the "Leadership in Engineering" course, a seminar series for undergraduates in the UCF College of Engineering & Computer Science.

Benefits include:

**Candid, High-Quality Experience** – Students are encouraged to introduce themselves, ask questions and share ideas with the VIP guest speakers to spark a personal and enriching dialogue.

**Resume Impact** – When this course appears on a transcript and resume, it reflects the student's commitment to learning about leadership, innovation and self-improvement – and that impresses employers.

**Competitive Advantage** – Speakers share a goldmine of information about the qualities that employers seek in job applicants and the skills they expect on the job.

**Multidisciplinary Learning** – Students hear the life experiences and accumulated wisdom of successful leaders from a variety of disciplines.

**Affordability** - The class is no-cost if the student is enrolled in a for-credit course.

## Students say:

**"The speeches are powerful and have motivated me to strive to be the best I can be."**

**"I will endeavor to push to the edge in everything I do."**

**"This is by far one of my favorite courses taken at UCF."**

**MICHAEL LEWIS**  
Senior VP, Duke Energy
